

## THE KEREM SCHOOLS

THE KEREM SCHOOLS were founded as a communal venture to provide a much needed educational service. Their essential aim is to train and develop the intellectual and moral powers and potentialities of children between the ages of 3 to 11 years, by combining both secular and Jewish education in a happy atmosphere.

The curriculum is designed throughout in accordance with the best of modern methods. This, together with general school activities, strives to bring out the individual personality of the child and to encourage self-expression, confidence and a sense of social responsibility and right behaviour. Appreciation of art, music and literature plays an important part in the life of the Schools. The staff is fully qualified in all respects.

The Schools at present comprise two departments; a Kindergarten, known as Kerem House, which is the original foundation dating back to May 1949, and a Preparatory School, the Kerem School, founded in January 1955 as a follow-on to the Kindergarten.

THE KEREM SCHOOL, the preparatory department for children between the ages of 5 and 11 years, provides this first formal educational stage for which the groundwork has been laid in the Kindergarten, the two forming an integrated whole.

The secular curriculum comprises all the normal school subjects, as well as painting, craft, drama and music. A prominent place is naturally accorded to Hebrew studies which include reading and translation, Prayer Book, Bible, Mishnah, Dinim, Rashi, religious knowledge and history. By precept and practice the faith of Judaism and the Jewish way of life are instilled.

Special attention is paid to the needs of the older children who are preparing for admission to grammar and public schools.

Supervised games and recreation and educational visits are important features of school life. The School has the use of the Lyttelton Playing Fields where facilities are reserved for football, cricket, netball and tennis.

The daily school assembly and the school lunch both play their part in the inculcation of good social behaviour.

The Kerem School is registered by the Ministry of Education.
